Log in with the email and password that you used during registration.

Tap on the **More** button in the bottom right.

STEP 4

Tap on the **Settings** menu.

STEP

Tap on the **Contact Methods** sub-menu.

STEP

For this example, we will tap the **Phone** button.

STEP

Type your **phone number** in and **set the rules** for that particular phone number. Then tap the **Continue** button.

STEP 8

You will be asked to accept the **terms and conditions**. Tap the **Accept** button to continue.

STEP 9

Enter the **verification code** that was texted to your phone. Tap the **Verify** button.

## **Manage Notifications (mobile app)**

STEP 10

You'll see the phone number in the **Verified Contacts** section with the status of Text Enrolled.

STEP 11

If you click on the **Pending Activation** link for a contact listed in the Additional Contacts on File, it will be the same verification process.

STEP 12

Tap Settings in upper left corner.

STEP 13

Next, you will tap on the **Manage Notifications** sub-menu.

STEP 14

In this example, we will tap on the **Billing** category.

STEP 15

Tap the **Not Enrolled** link next to any contact you want to assign to a specific alert.

STEP 16

Slide the **activation button** to the right to add that contact to the alert.

STEP 17

Notice the status change. You can keep adding or removing contacts from specific alerts anytime you wish to make changes.
