

## Product specifications

Model 400-IS

### Product applications:

First stage of residential surge protection  
UL Listed for 200 AMP continuous AC service

Installation, performed by Coastal Electric Cooperative, takes a few minutes

### Product features:

3-pint redundant grounding  
100 % factory tested

### Product specifications:

Applied Voltage: 120/240 Vac (120/208 for 5J Option)

MCOV: 150 volts, phase to ground

Protects: Each phase to ground/neutral in meter socket

MOV Surge Current Rating: 80 kA per phase

Clamp voltage: 240 volts @ 1ma

Fusing: Coordinated short circuit and thermal

UL/CUL Listed: Secondary Surge Arrestor

### Mechanical

Weight 2.5 pounds

Dimensions: Depth= 4.2" Diameter = 6.875"

Enclosure= Fiberglass reinforced polycarbonate

Color: Gray with UV inhibitors
